

Let Sun City Aviation Academy "Take You to Higher Places."

Pembroke Pines, Florida

info@suncityaviation.com

754-423-2159

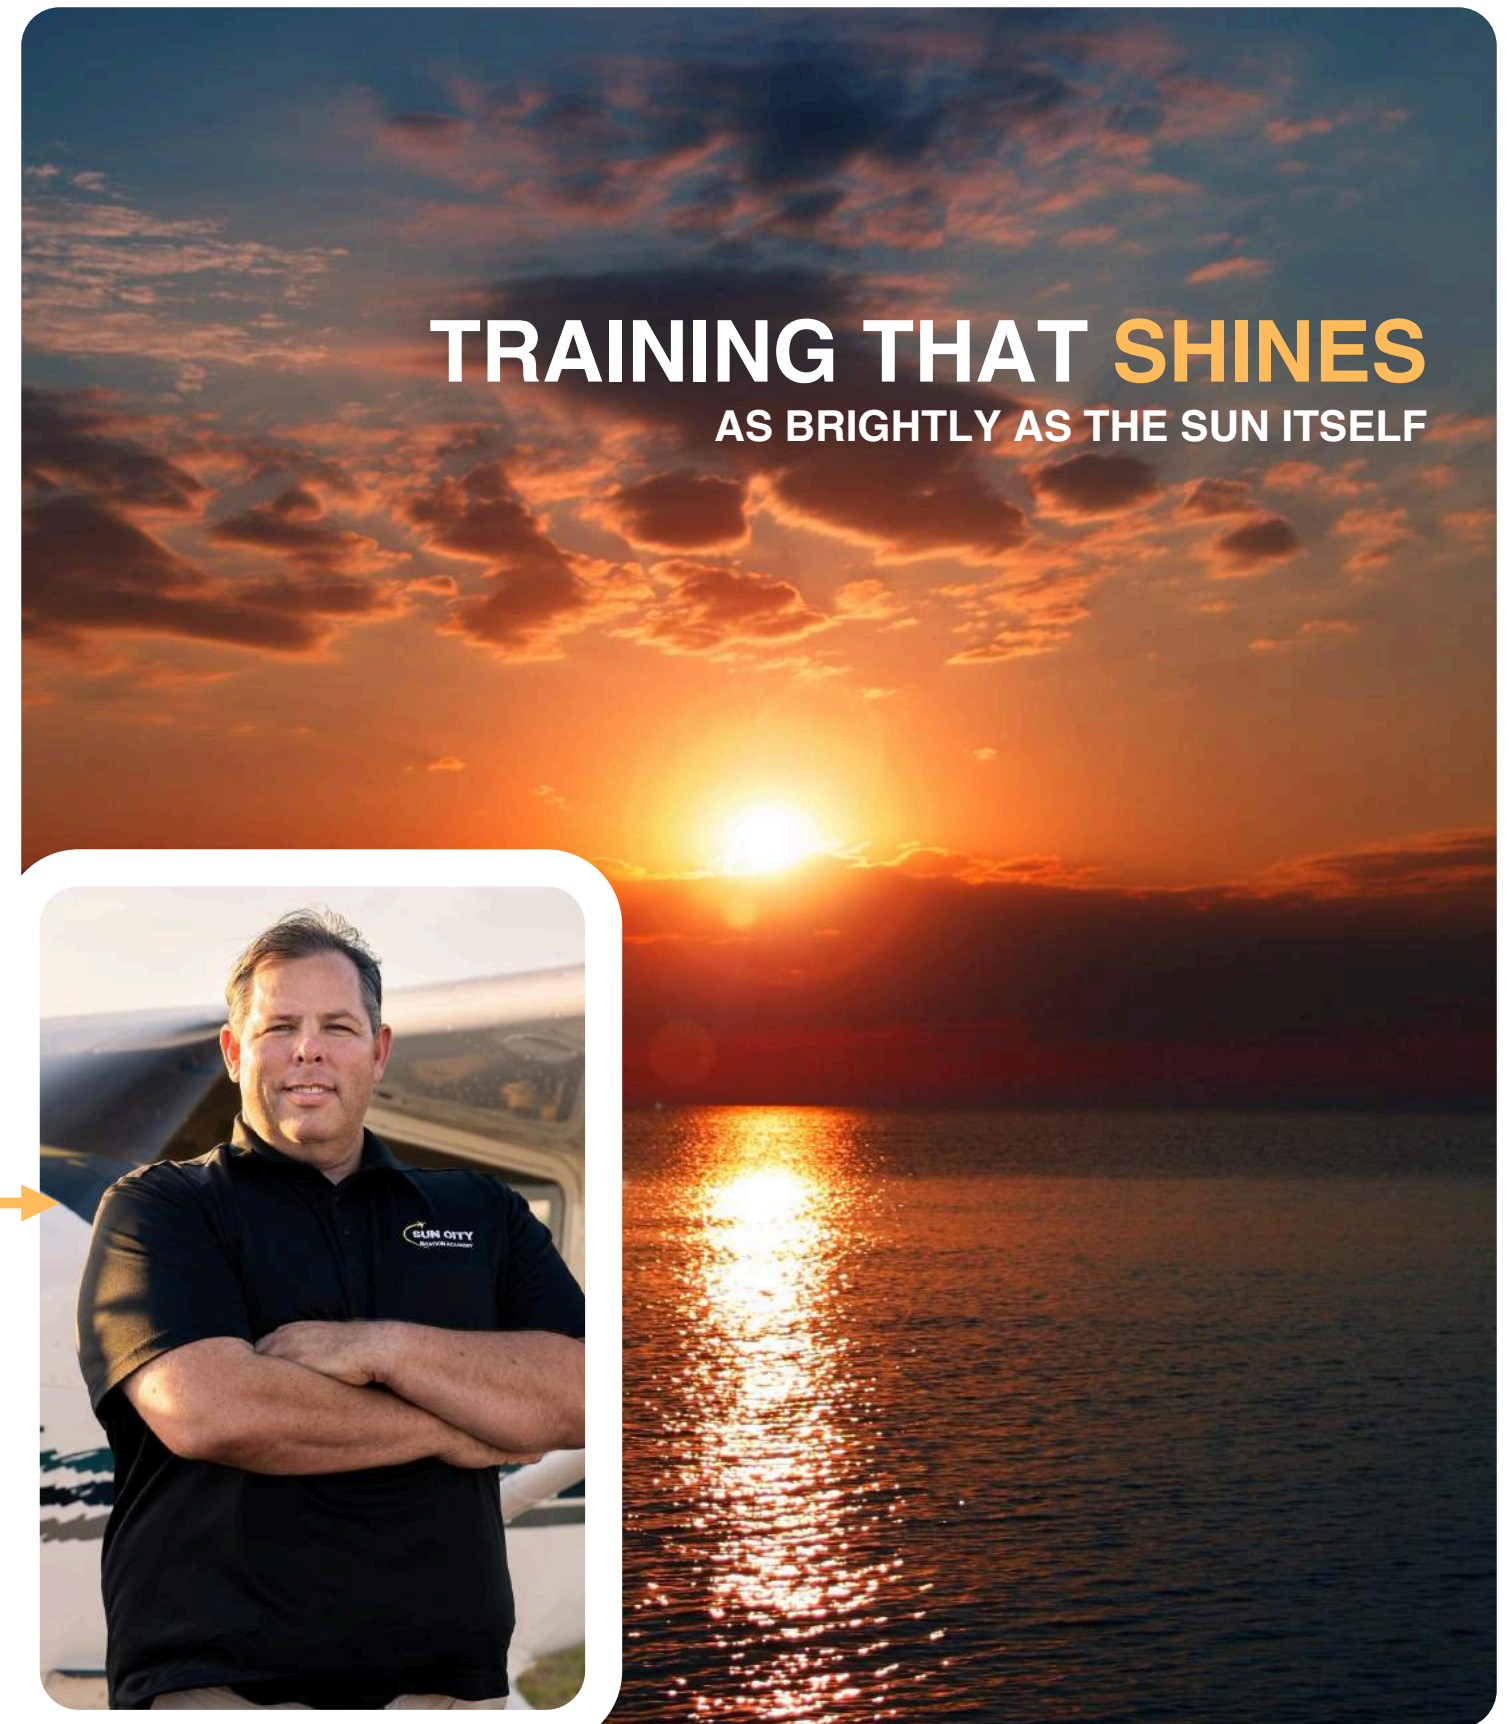

We offer a diverse range of programs designed to help you achieve your aviation goals. Our goal is to make Sun City Aviation Academy the top rated flight school in the country.

From our full-time **7 days a week** professional pilot program to flexible training options where you can train as your schedule allows, we work with you to make pilot training a reality.

Luke Poulos, our founder, boasts over 20 years of aviation industry experience. He has thousands of flight hours and is dedicated to sharing his aviation knowledge.

01 HOW DO I GET STARTED?

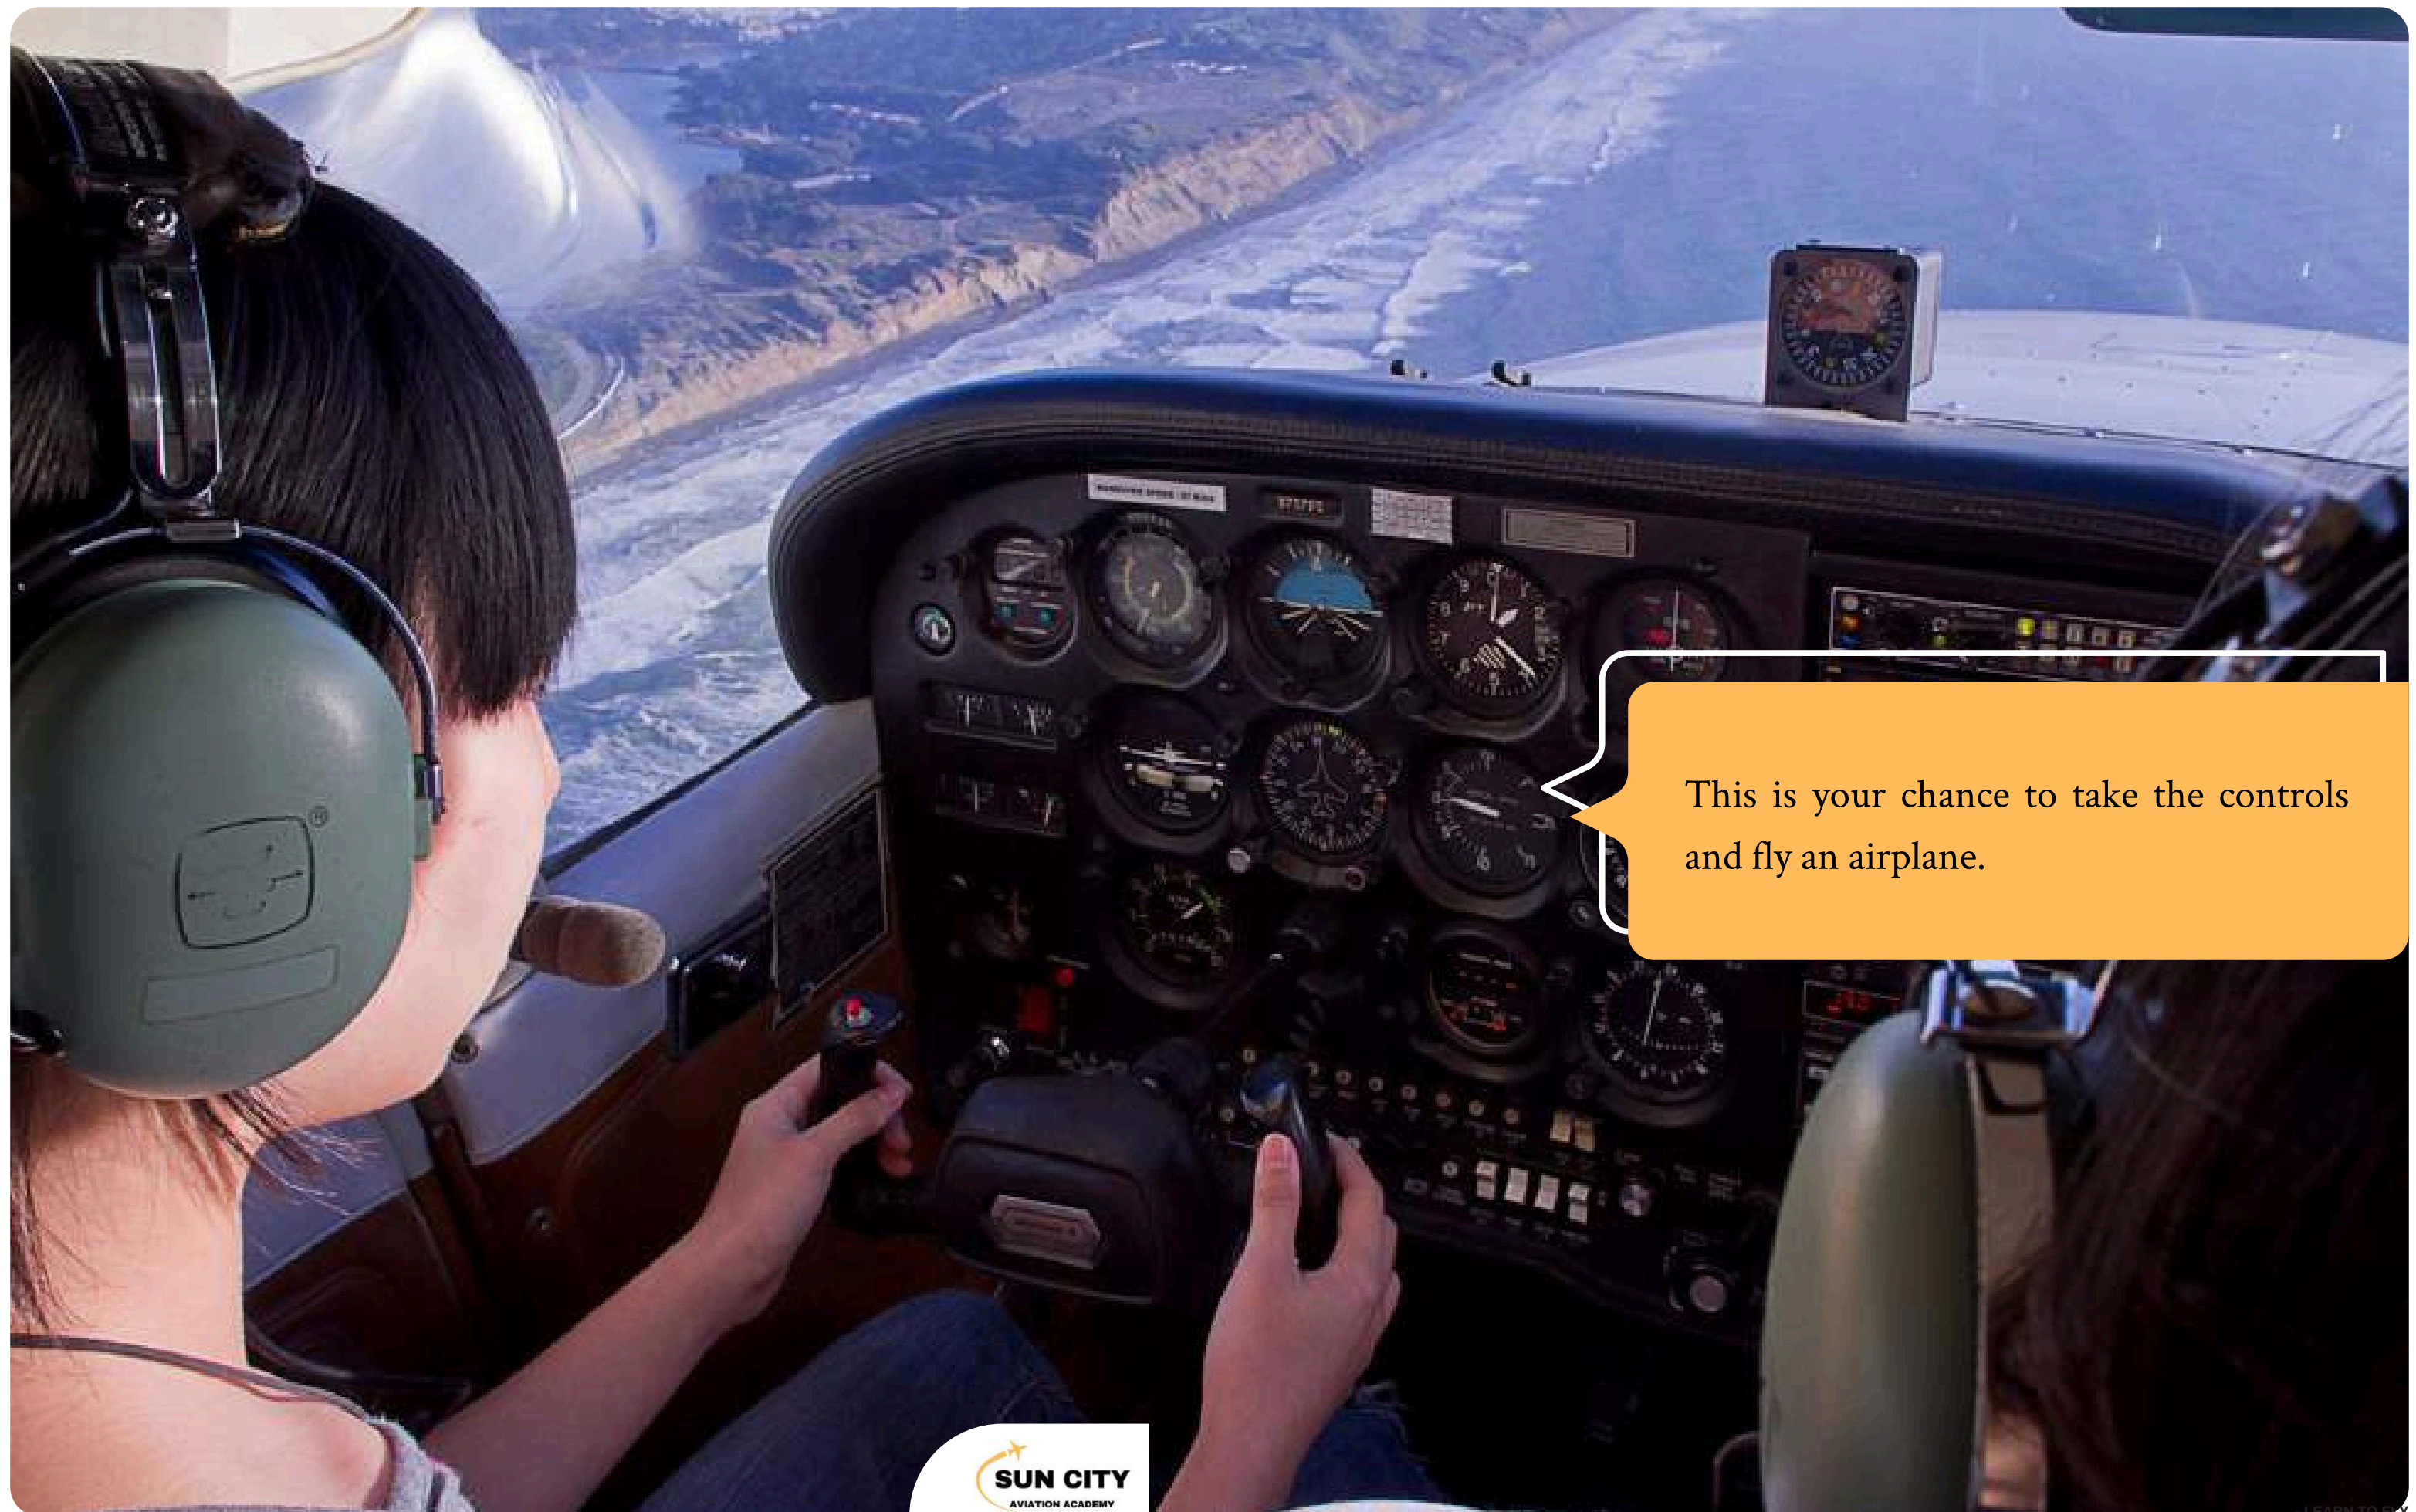

Your first step to becoming a pilot

The first thing we recommend is to do a **discovery flight**.

A Discovery Flight, sometimes called an *Introductory Flight*, is a short flight alongside a certified flight instructor that gives you a chance to experience what it's like to be inside the cockpit and take control of a smaller aircraft. The entire experience is around an hour and a half. You'll complete a pre-flight inspection and a post-flight briefing with a certified flight instructor who can answer all of the questions you may have.

You'll also have the opportunity to take the controls and experience the joy of flying first hand.

This is your chance to take the controls and fly an airplane.

02 WHAT COURSES DO YOU OFFER?

Pilot programs to fit any experience level

Private Pilot Certificate

The Private Pilot Certificate provides the foundational skills to be a pilot. It's the first certification a pilot receives and it allows them to be the pilot in command of an aircraft and take passengers.

Instrument Rating

This rating equips you with the skills to fly an airplane safely even when you can't see out the window because of clouds or challenging weather.

Commercial Pilot Certificate

Begin your pilot career when you obtain a commercial pilot certificate. With a commercial pilot certificate, you can fly for compensation or hire.

Multi-Engine Rating

The Multi-Engine Rating gives you the training to safely fly larger more advanced aircraft that have more than one engine.

Certified Flight Instructor

Become a teacher for new pilots. Certified Flight Instructors share their aviation knowledge and teach others to fly.

Airline Transport Pilot

Reach the highest level of pilot certification with an ATP (Airline Transport Pilot) license. Having an ATP certification is required to become an airline pilot or fly cargo and corporate airliners.

Your aviation dreams are our priority here at Sun City. Whether you're pursuing a professional career or just flying for fun and enjoyment, we have the perfect path for you.

03

WHY BECOME A PILOT?

There has never been a better time than NOW

There has never been a better time to pursue a career as a professional pilot.

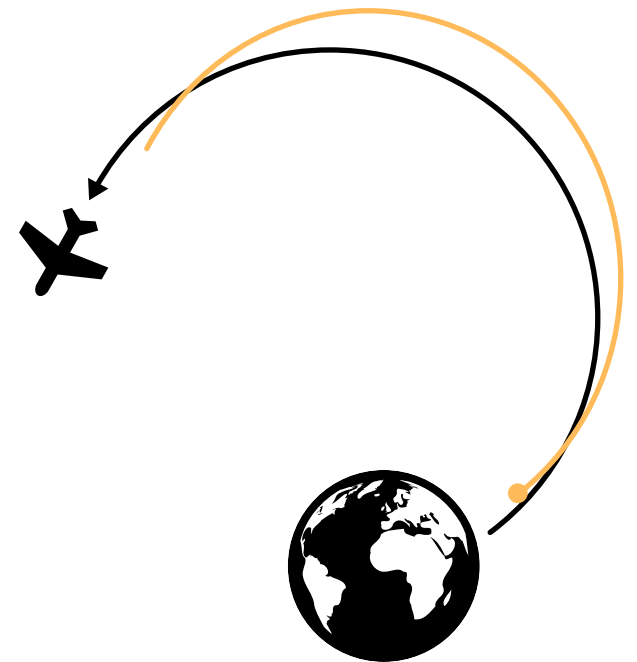

In the next 20 years, about 32,000 pilots will be needed each year, making a total of 649,000 pilots required for the air travel industry.

Regional first officers are now being offered starting salaries starting around \$100,000 after bonuses and benefits. If you build seniority at major legacy carriers, captains can earn upwards to over \$200,000 depending on years of experience and aircraft type.

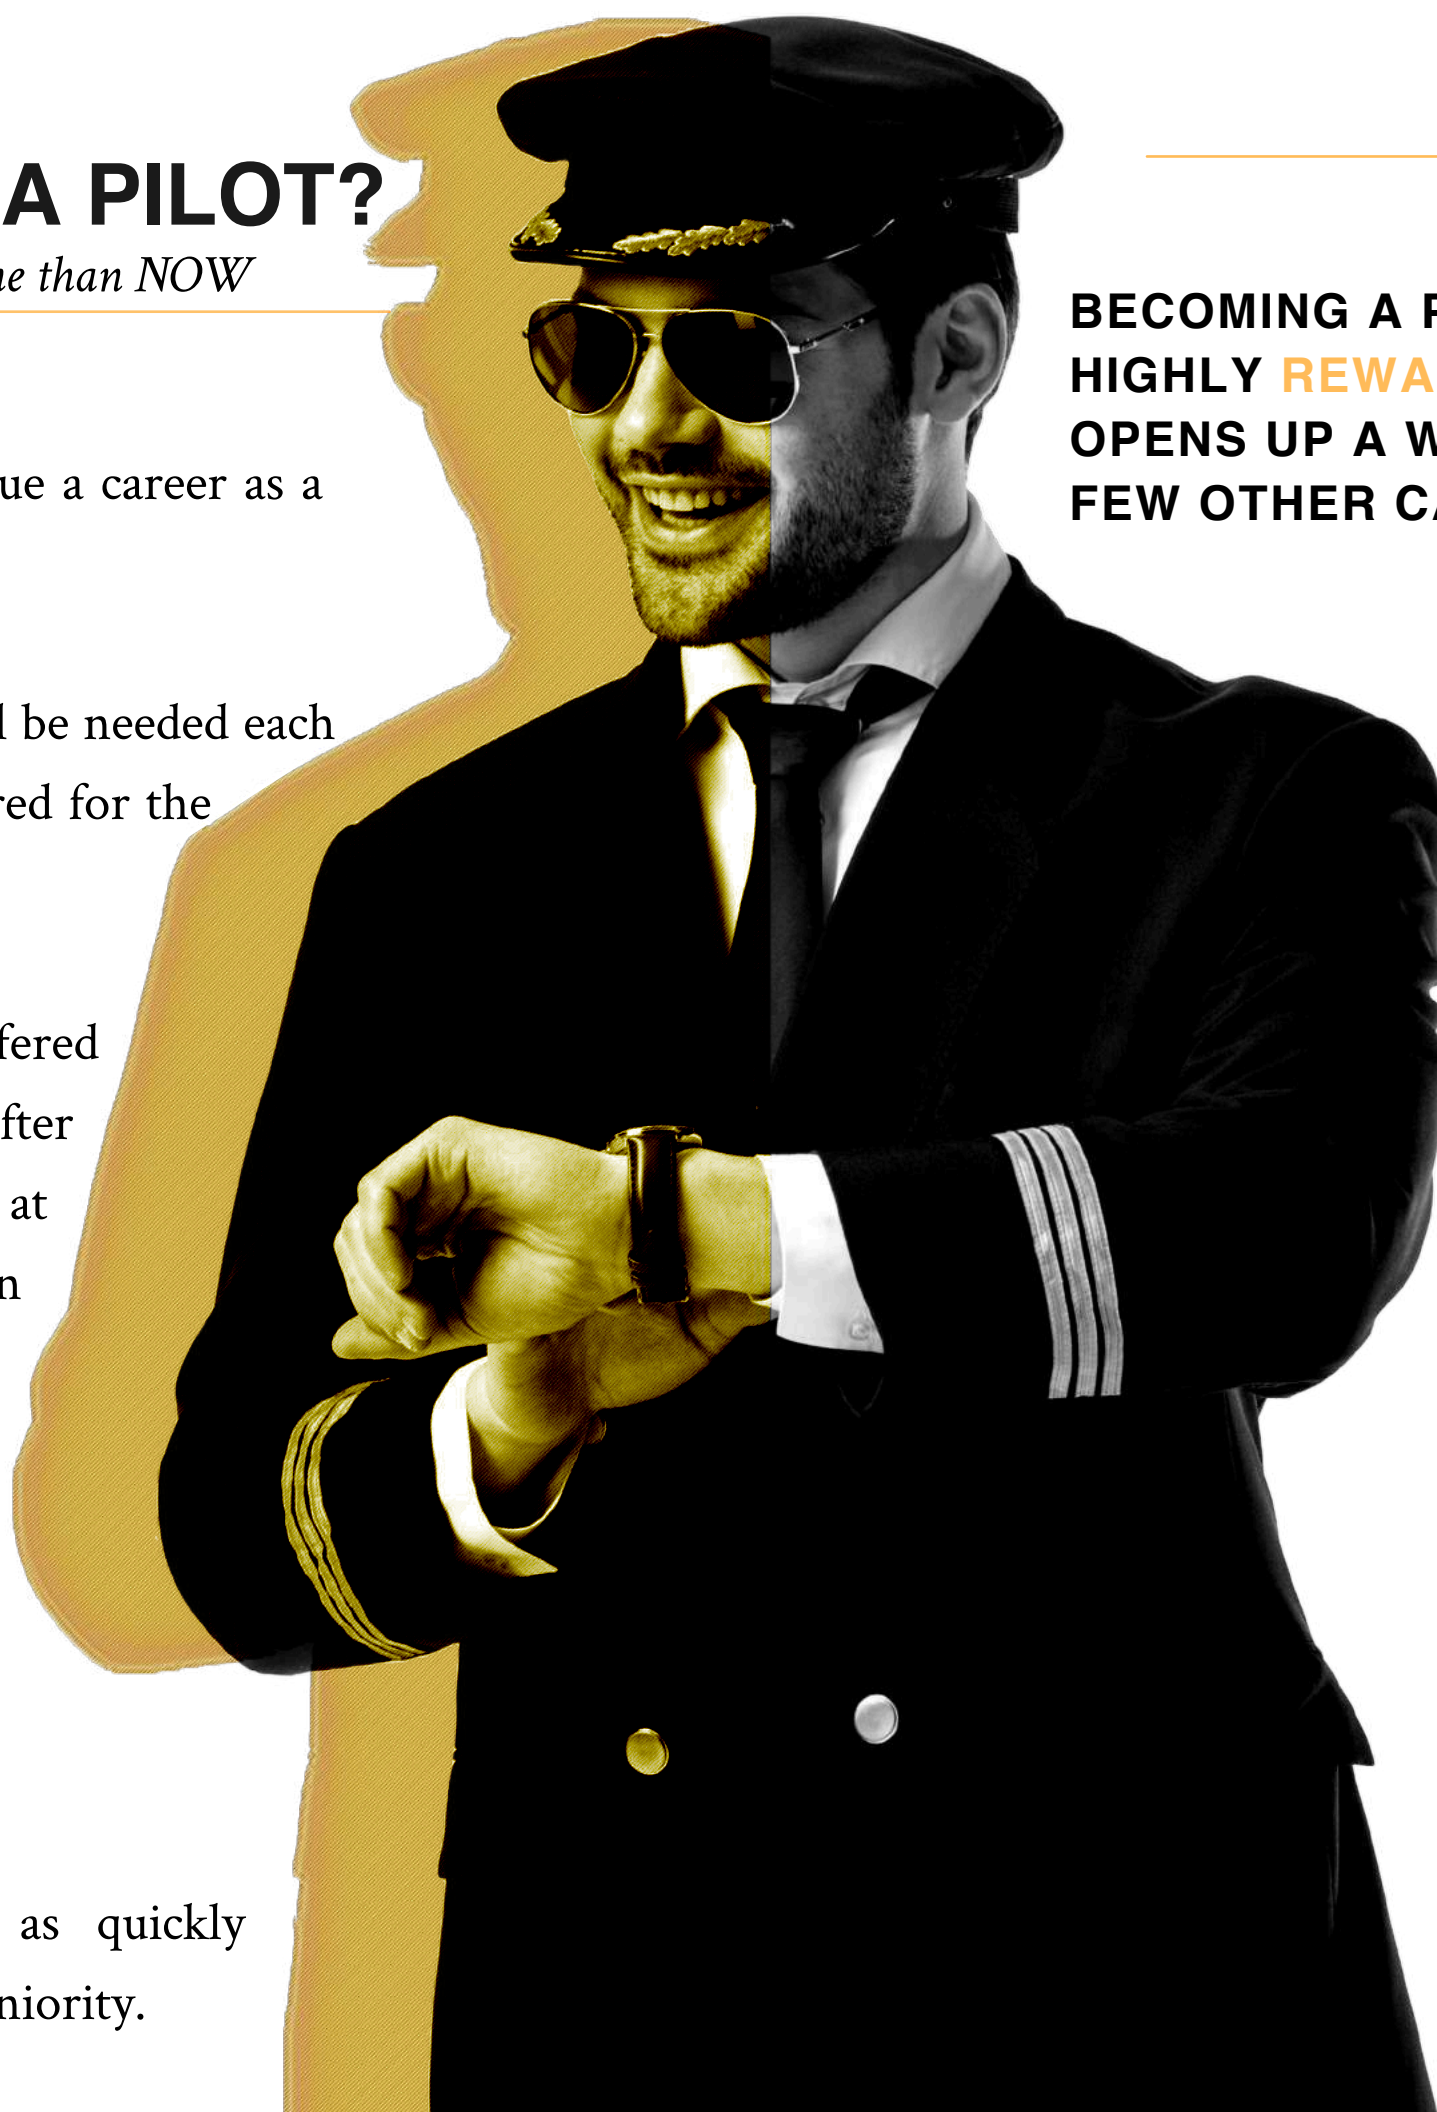

It's not unheard of to hear about pilots with decades of experience making \$500,000 a year.

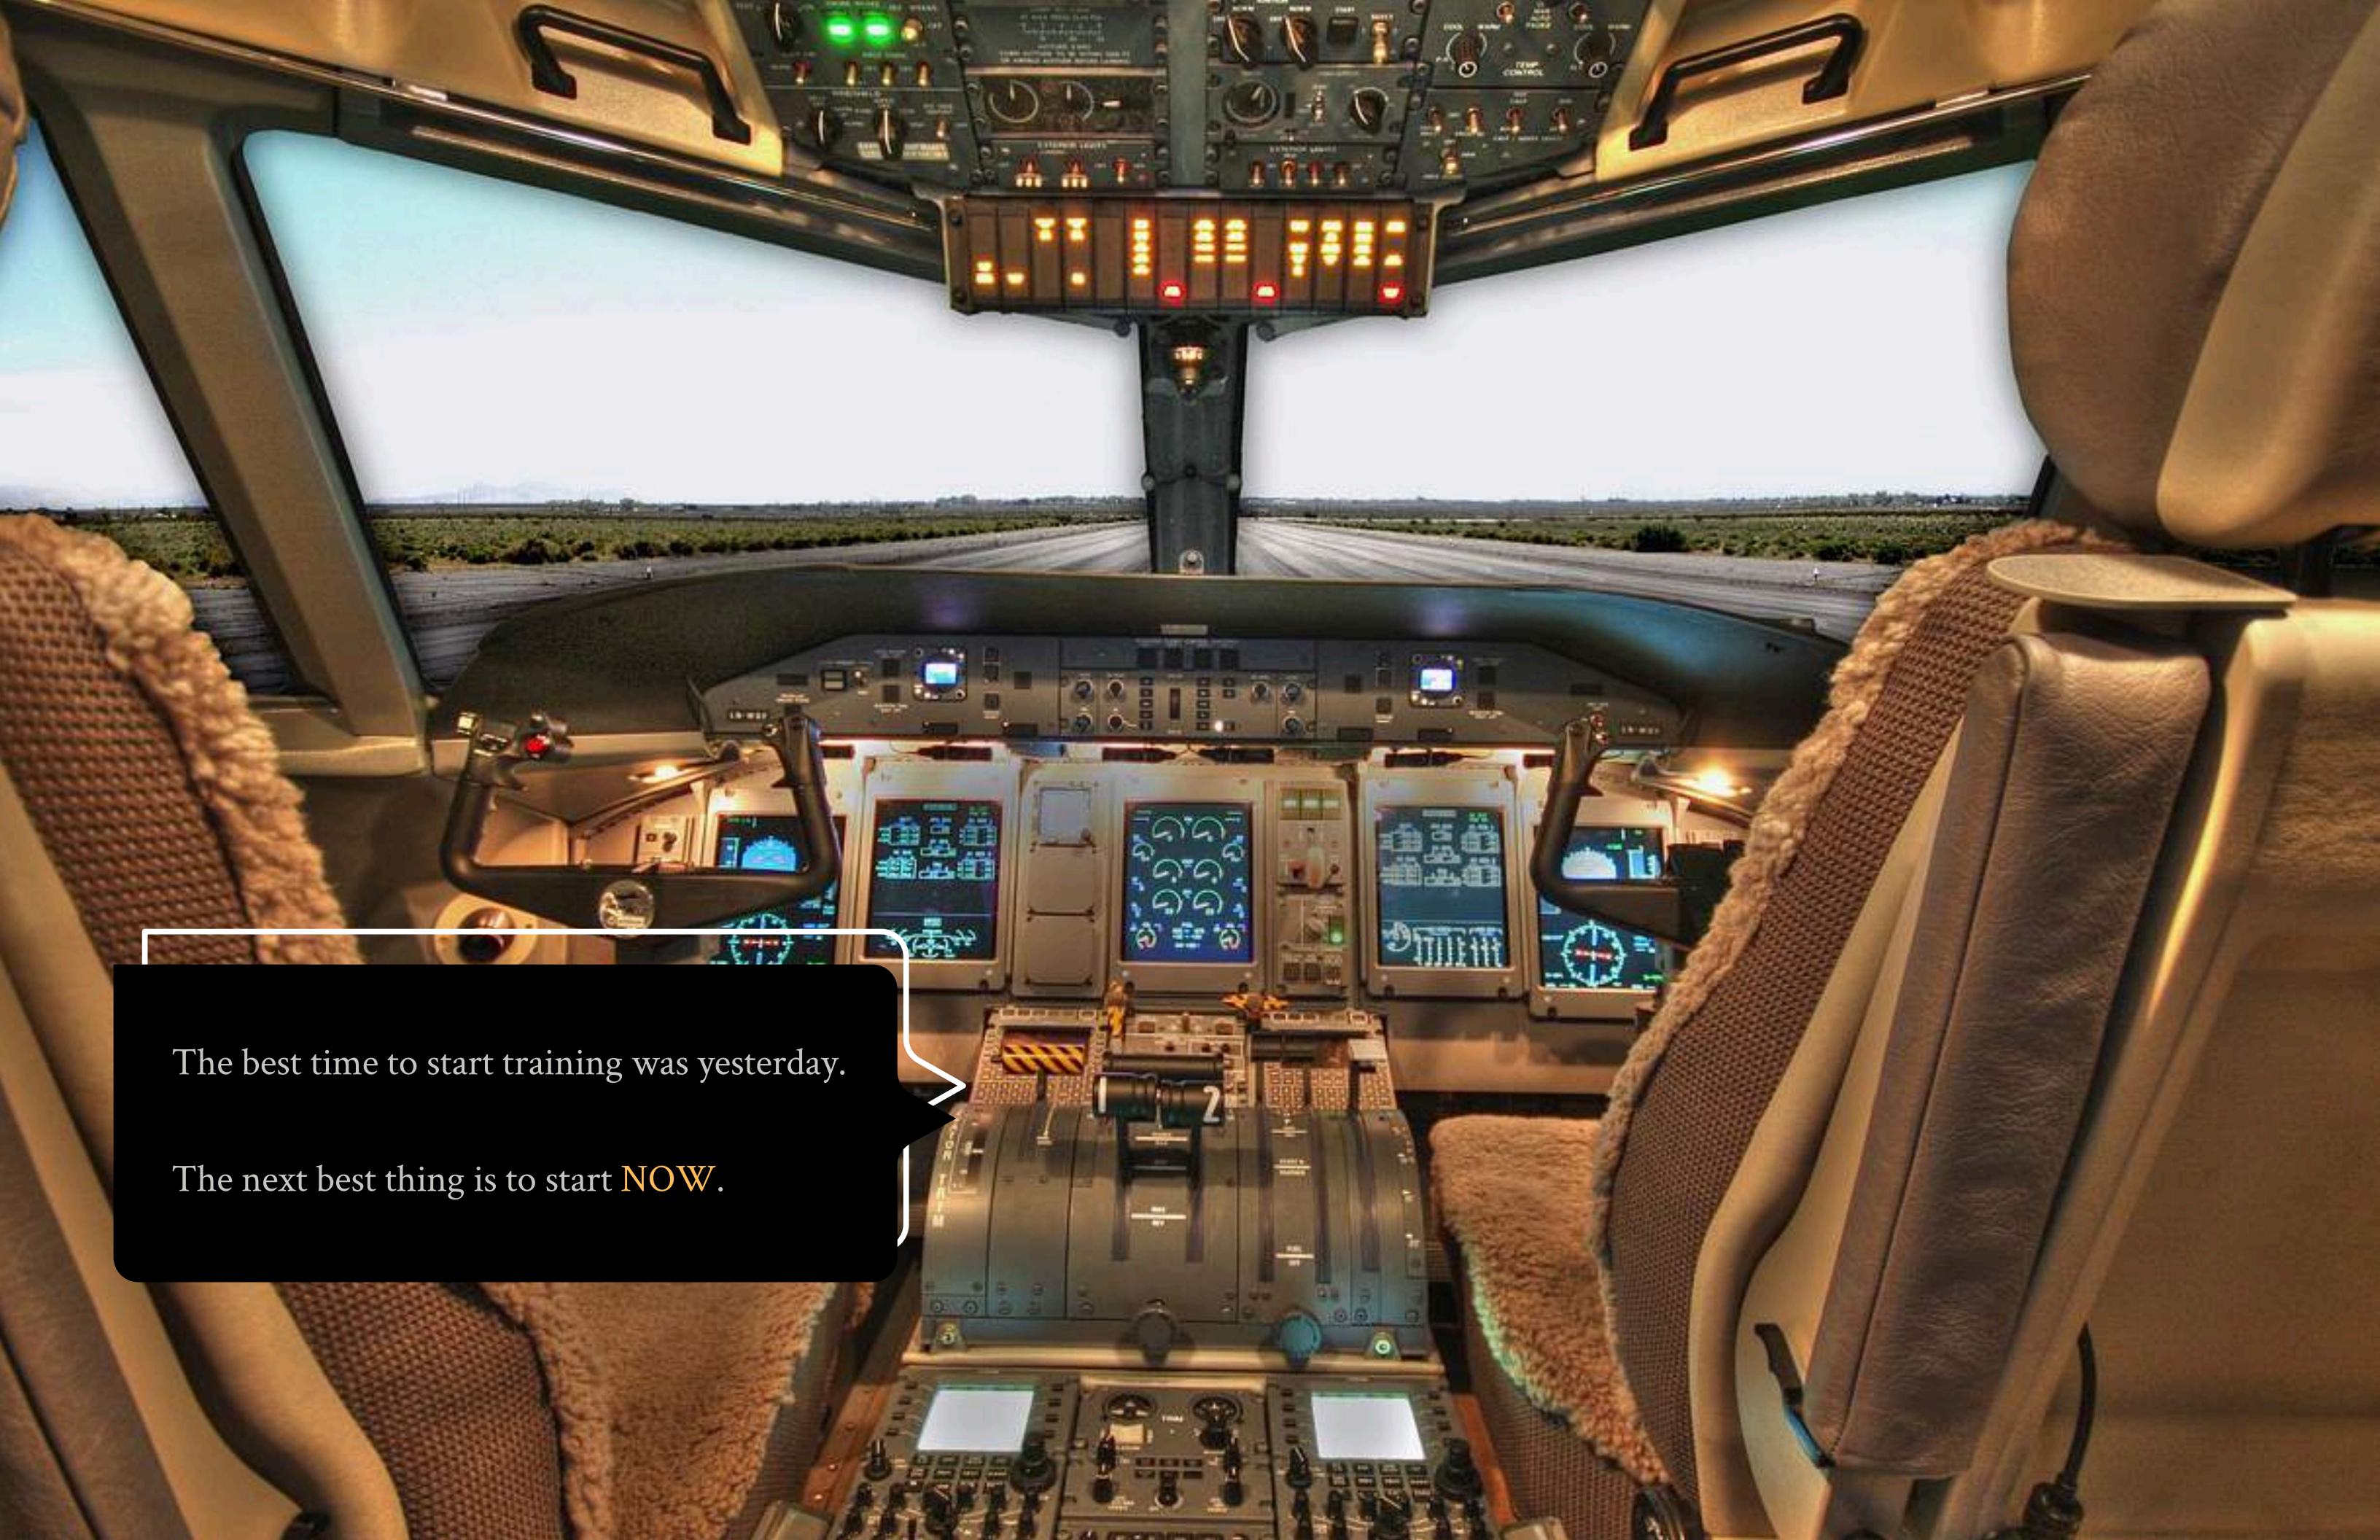

It's all about completing your training as quickly and efficiently as possible to start building seniority.

BECOMING A PILOT IS AN EXCITING AND HIGHLY **REWARDING JOURNEY** THAT OPENS UP A WORLD OF OPPORTUNITIES. FEW OTHER CAREERS CAN MATCH THIS.

Becoming a pilot also means you will have amazing opportunities to go to places you've never been - and get paid to do it! Who doesn't love to travel?

A high-quality, realistic rendering of an airplane cockpit from the perspective of the pilot's seat. The cockpit is filled with various instruments, including multiple digital display screens showing flight data, engine gauges, and navigation information. The control yoke is visible on the left, and the throttle levers are in the center. The view through the windshield shows a runway stretching into the distance under a clear sky. A speech bubble is overlaid on the left side of the image, containing motivational text.

The best time to start training was yesterday.

The next best thing is to start **NOW**.

MEET **NEW** CULTURES

If you are a sociable person who enjoys the company of other people everyday, one of the best things about being a pilot is the opportunity to meet new people.

From your flight crew to passengers, to residents of the cities you visit, you'll be introduced to people and cultures you may not have otherwise had the opportunity to become acquainted with.

*Your routine will be varied and everyday will be a **new adventure!***

We pride ourselves on creating a warm and friendly environment that genuinely feels like family.

04 WHY SUNCITY?

What makes this school unique?

Our management team and instructors are some of the most experienced in the industry, contributing to a 97 % first time pass rate.

Competitively priced, we are also one of the most flexible flight schools in the country when it comes to scheduling and payment

as we are focused on the needs and success of the student. A student may pay for the entire course up front, in increments, or pay as they go with a credit card on file. No deposits are required and we are flexible with payment options.

97%
First time pass rate

★★★★★

“ Great training experience, whether a student or an existing pilot brushing up on skills. – **Phil Sheridan**

★★★★★

Very great school. I’m currently gearing up to get my instrument rating after my private certificate. One thing I have to point out is consistency, when you learn and fly with an instructor you stick with that instructor. Although it’s a tad bit expensive it’s worth it. Kudos to my flight instructor Nicholas, extremely knowledgeable and provides great feedback. – **Tim Robinson**

★★★★★

Great experience. Efficient training with fantastic instructors and nice aircraft!
– **Michael Stongin**

05 MEET THE TEAM

Our leadership team

With more than 100 years of combined commercial aviation experience, the Sun City leadership team has tens of thousands of hours of flight instruction dual given.

Luke Poulos
Founder & CEO
